

GHGManage™

With EnviroManage's GHGManage™, your business can be assured that it complies with the new Greenhouse Gas legislative compliance and reporting standards. Don't be exposed!

COUNT

Our greenhouse gas (GHG) management software COUNTS your GHG emissions and produces an emissions inventory.

COST

It COSTS your emissions using the latest market prices.

REPORT

It produces a GHGManage™ for REPORTING to the Ministry of Economic Development.

VERIFY

It VERIFIES that your GHGManage™ meets New Zealand and international GHG reporting standards.

REDUCE

It produces a carbon disclosure report to show where you can best REDUCE emissions and save carbon costs.

TRADE

It provides you with a link to a competitive TRADING platform should you need to buy or sell carbon credits.

Free Demonstrations

EnviroManage is an innovative web-based environmental compliance system built on ISO14000. It is available in any language and can provide tailored reports for any authority in the world. Contact us for a free demonstration today. We look forward to hearing from you.
