

# ENVIROMANAGE

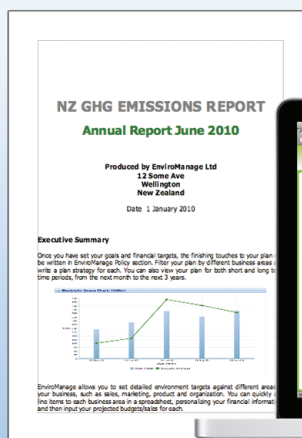

With EnviroManage's Gaile™ your business can be assured that it complies with the new Greenhouse Gas legislative compliance and reporting standards.

<b>COUNT</b>	Our greenhouse gas (GHG) management software COUNTS your GHG emissions and produces an emissions inventory.
<b>COST</b>	Gaile™ COSTS your emissions using the latest market prices.
<b>REPORT</b>	Gaile™ generates a NZ ETS Return or other emission report for REPORTING to the relevant authority.
<b>VERIFY</b>	Gaile™ VERIFIES that your emissions report meets the relevant national or international GHG reporting standards.
<b>REDUCE</b>	Gaile™ produces a carbon disclosure report to show where you can best REDUCE emissions and save carbon costs.
<b>TRADE</b>	Gaile™ provides you with a link to a competitive TRADING platform should you need to buy or sell carbon credits.

## Free Demonstrations

EnviroManage is an innovative web-based environmental compliance system built on ISO14000. It is available in any language and can provide tailored reports for any authority in the world. Contact us for a free demonstration today. We look forward to hearing from you.
